Recommendation:

- * Choose the size based on your hip measurements. I do not recommend blending between sizes. The pattern fits loose with ease.
- * If you are in between sizes, choose the bigger size for a more loose fit, or the smaller size for less fabric.
- * *Check the finished garment measurement chart for a more accurate choice.*

* The garment wraps around the body, allowing you to adjust it for your perfect fit.

Fabric Consumption

All pattern pieces include a **1cm (3/8") seam allowance**, except for the hem which includes a **2cm (3/4") seam allowance**.

* It's recommended to add 10% to the measurements in the chart above when purchasing your fabric, as it could shrink after washing it, depending on the material.

* This is also necessary if you are working with a print that needs to be matched, I recommend to add 30% at least.
